Surplus Stock, Spring, 1917

CERTIFICATE OF NURSERY INSPECTION No. 11

SEASON 1916-1917

This is to Certify, That in accordance with an Act of the Legislature, approved April 17, 1905, the nursery grounds of Marble City Nurseries at Knoxville, County of Knox, State of Tennessee, were inspected by G. M. Bentley, J. E. Blake, H. B. Drane, on July 28-29, 1916. The growing nursery stock was apparently free from San Jose Scale and other dangerously injurious insect pests and plant diseases.

Said nursery is equipped for fumigating all nursery stock.

This Certificate does not apply to stock not grown in the aforesaid nurseries, unless such stock is covered by proper Certificate in favor of the nursery where grown. It is not transferable and may be revoked for cause.

This Certificate becomes invalid after August 1st, 1917, and cannot be legally used after that date.

G. M. Bentley
State Entomologist and
Plant Pathologist.

Offer for Spring, 1917

We have a large surplus of two-year apple trees. Our trees are well grown in every particular, clean, thrifty and well proportioned. An ideal lot in every way. In order to dispose of this stock we will, for early orders sell at bargain prices. This stock is grafted on No. 1 imported French seedlings, 7 to 12 m. m. The scions we used for the leading commercial varieties came from young bearing orchards at Wenatchie, Washington and are absolutely true to name and have good system of roots. We shall be pleased to send samples, if wanted. The varieties with * we can furnish in large quantities.

STANDARD PEARS

Budded on Imported French stock, branch rooted No. 1, 7 to 12 m. m.

Our Pear Trees have made extra fine growth. We have 75 thousand in one block that will go from 4 to 7 feet high, a good proportion of them are nicely branched. In June, when they were 2½ feet high, we pinched off the terminal ends and made them branch. They look like two year trees. Can furnish straight whips or branched trees as wanted. Our Keifer and Garber are nearly all heavily branched.
